

International New Arrivals and EAL Programme

at Burnley Brow Community School

2020-2021 Dates TBC

Developed by highly-experienced leaders and classroom practitioners, our International New Arrivals and EAL Programme will support leaders, coordinators and classroom practitioners in helping to address common barriers and ensure a learning experience which is tailored to the needs of INA and EAL pupils.

Incorporating theory-based findings, an overview of systems and policies for developing an inclusive approach to teaching children with EAL, and building in the excellent learning and teaching practice at Burnley Brow, our programme will provide practitioners with the knowledge and skills to provide an inclusive learning environment for children with EAL and INA.

Our practical, hands-on training includes:

- Specific steps to support INA/EAL children in settling into school;
- An overview of common barriers faced by pupils in the various stages of language acquisition;
- Teaching strategies and activities to support language acquisition throughout the curriculum;
- An introduction to specific language intervention that can be used to compliment Quality First Teaching;
- Strategies for assessment of children with EAL;
- Where to find resources to support INA and EAL learners.

The day will be held in our Training and Education Centre and will include a buffet lunch, resources and refreshments throughout the day.

Please register your interest by emailing our Admin Team-
